

CQI IRCA ISO 9001:2015 LEAD AUDITOR COURSE (QUALITY MANAGEMENT SYSTEM)

With ISO 9001 Internal Auditor certification, you'll learn how to audit an organization's Quality Management processes. This is important for any company aiming to meet the ISO 9001 standard. ISO 9001 Lead Auditor certification gives you the skills to lead audits both inside and outside your organization. Lead Auditors are experts who know how to manage audits and lead audit teams effectively.

During the 6-day training, you'll learn how to be a Lead Auditor, including best practices for auditing, and how to plan, conduct, and report on ISO 9001 audits. You'll also learn how to assess a company's quality management system and lead audits from start to finish. After the course, you'll take our ISO 9001 Lead Auditor exam to show what you've learned. The course content is fully updated with the latest ISO 9001:2015 standard.

Course contents :

Our comprehensive course features a blend of lectures, interactive group sessions, individual workshops, case studies, and real-time/simulation-based role-play exercises.

Participants will explore the following key topics:

- 1 Understanding the purpose of a quality management system, quality management systems standards, and third-party audits.
- 2 Detailed explanation of the auditor's role in planning, conducting, reporting, and following up on quality management system audits according to ISO standards.
- 3 Practical application of planning, performing, conducting, reporting, and following up on audits in compliance with ISO 9001 standards and guidelines.
